Ickenham and District Society of Model Engineers

The Ickenham Miniature Railway is a 5 inch and 3½ inch gauge passenger carrying railway with trains hauled by steam and electric locomotives.

The Railway is operated by members of The Ickenham and District Society of Model Engineers. We meet at our Ickenham Headquarters on Friday evenings from 8.00pm, for a programme of talks on engineering/railway subjects.

Also within the Society are sections specialising in Railway Modelling in gauges such as OO and EM. These sections hold separate meetings regularly throughout the year.

For further information please speak to any member of the society on one of the running days or see our website at

www.idsme.co.uk
